

Micro SD card reader module with SPI interface

This module enables reading and writing on micro SD card with a microcontroller board for example Arduino.

Product number MSD-AADP

Weight 0.005kg

Product description

This module enables reading and writing to micro SD cards with a microcontroller board, for example Arduino.

Technical data

- Operating voltage: 4.5 - 5.5V DC
- supports Micro SD Card memory cards up to 2GB or Micro SDHC up to 32GB
- Onboard 3.3V voltage regulator
- Communication via SPI
- Dimensions: approx. 45 x 24 x 8 mm

Product properties

Gross Weight (kg) 0.005

Zolltarifnummer 84718000

Country of Origin China

Product ID MSD-AADP

Manufacturer ID MSD-AADP

Brand BerryBase

EAN 4251266703204
